

# INTRODUCING — OnlyOne OFFICE

The Small Business Solution  
that enhances your company's  
image  
*and* your employees' productivity  
with ONE number!

*Wherever you are . . . be there with only one number!*

- For more than a decade, large corporations have had access to sophisticated auto attendants, unified messaging, voicemail systems and web-based messaging systems that most small to medium sized businesses cannot afford.
- OnlyOne allows small business owners to offer these same features to their employees, but with **no** equipment to buy, **no** technology that becomes obsolete, and **no long-term contracts!**
- Now, these same small companies have access to *full-featured* unified communications systems that will fit their needs, without having to replace any device they are currently using.
- OnlyOne has built its service around the Control, Simplicity, and Privacy of having just one number for work, home, mobile phone, fax, voice messaging, pager and voicemail.
  - *Professional Front-end Auto Attendant*
  - *Optional Custom Advertising and/or Music on Hold*
  - *Fax to e-mail*
  - *Voicemail*
  - *Call Screening*
  - *Service levels for each extension customized for you by your OnlyOne representative*
  - *Company Dial by Name Directory*
  - *Other new and exciting options for your OnlyOne Service!*
